

Illuminating Care: Lighting Strategies for Modern Hospitals

**6 Continuing Education Credits:
IES (CEU) or AIA CES (LU/HSW) or NCQLP (LEU)**

Join us for Kirlin's 2025 CEU seminar that brings healthcare lighting design to life in an engaging, collaborative environment. You'll explore the latest trends, learning how thoughtful lighting choices can enhance patient outcomes and optimize critical spaces like MRI suites, behavioral health areas, and birthing rooms. Along the way, you'll see our cutting-edge fixtures in action in our showroom and tour our factory to see firsthand the precision, quality, and team behind every Kirlin product.

But it's not all work - we've also carved out time for you to connect with other designers from across North America. Whether you're sharing ideas and insights, or enjoying some fun and downtime exploring Detroit, this is an opportunity to learn, network, and have fun in a relaxed setting.

With its mix of education, inspiration, and meaningful connections, this seminar is an invaluable experience for anyone looking to elevate their healthcare lighting experience.

> Spaces are limited, so reserve your spot today!
